

THE GLOSS TOP COAT

TRIED. TRUSTED. AND FAR TOO GOOD TO CHANGE.

Apply. Cure. No Wipe. Done.

Finish every set with the shine it deserves.

The Gloss Top Coat by Tayla-Made Nail Co is a professional no-wipe gel top coat designed to seal your finished service with a smooth, high-gloss finish.

But unlike many products in the Tayla-Made range, this formula isn't new to us.

It's tried. It's trusted. And it's a formula we've stood behind for more than 10 years.

The Gloss Top Coat is exactly the same product and formula our customers have known and loved as The Ultimate Gloss Top Coat by Colour Me Pretty - now presented in a more sophisticated, boujee Tayla-Made look.

The formula hasn't changed because we didn't believe it needed to. What has changed is the presentation.

The Gloss Top Coat now comes in the Tayla-Made luxe matte white 15ml bottle with its gold lid and our curved/rounded precision brush, giving a long-standing favourite a more refined look and application experience.

1 TRIED & TRUSTED The same formula/product used and trusted for more than 10 years.	2 HIGH GLOSS A smooth, high-shine finish that enhances the colour and design underneath.	3 NO WIPE Cure for 60 seconds. No cleanser or inhibition-layer removal required.
4 ACROSS THE SYSTEM Designed as the glossy finishing step across multiple Tayla-Made gel services.	5 15ML + 100ML Professional everyday bottle plus a practical refill option for high-volume use.	6 NEW TAYLA-MADE LOOK Same proven product. Luxe matte white bottle, gold lid and precision brush.

THE FINAL STEP MATTERS

YOUR TOP COAT IS MORE THAN JUST SHINE

You've prepared the natural nail. You've created the foundation. You've perfected your structure. You've applied your colour. You've created your nail art.

The top coat is what brings everything together.

The Gloss Top Coat creates the final smooth, glossy surface over your finished design while enhancing the appearance of the colour underneath.

Whether you're finishing a simple gel manicure or detailed nail art, the final layer should complement the work beneath it - not detract from it.

The service isn't finished until the finish is right.

A FORMULA WE ALREADY TRUST

MORE THAN 10 YEARS OF EXPERIENCE BEHIND IT

When you're building a new product range, there's a temptation to make everything new simply because you can. We didn't want to do that.

The Gloss Top Coat is the same formula and product that has been part of the Colour Me Pretty range as The Ultimate Gloss Top Coat for more than a decade.

It has become a customer favourite and, just as importantly, it's a formula we know and trust ourselves.

So when it came time to choose the gloss top coat for Tayla-Made Nail Co, the decision was simple.

We weren't going to replace a product we already believed in just for the sake of making something different.

Instead, we kept the formula exactly as it is and gave it a new, more sophisticated Tayla-Made presentation - our luxe matte white bottle, gold lid and curved/rounded precision brush.

Same trusted product. Same formula. A more boujee new look.

HIGH-GLOSS FINISH

LET YOUR COLOUR LOOK LIKE YOUR COLOUR

A good gloss top coat shouldn't compete with the colour underneath it. It should enhance it.

The Gloss Top Coat creates a smooth, high-shine surface that allows your finished colour and nail art to take centre stage.

From soft nudes and sheer shades to rich dark colours, brights, glitters and detailed nail art, The Gloss Top Coat provides the polished final surface that completes the look.

Colour underneath. Gloss on top. Nothing complicated.

NO-WIPE FORMULA

CURE. FINISH. DONE.

The Gloss Top Coat is a no-wipe formula.

Once the product has received its complete cure, there is no inhibition layer that needs to be removed with cleanser.

Apply Cure for 60 seconds Finished.

No additional cleansing step. No wiping away the finished surface.

Allow the product to cool momentarily after curing before touching the finished surface or applying cuticle oil.

No wipe means exactly that - once cured, you're done.

ONE TOP COAT. ACROSS THE SYSTEM.

The Gloss Top Coat is designed to be the glossy finishing step across the Tayla-Made gel system.

Use it over: The Base with your chosen compatible gel colour • The Base Colour • The Perfect Gel Polish - The Perfect Black & The Perfect White • Other compatible gel colours • The Foundation when appropriate • The Builder when appropriate • Nail art • Foils • Compatible embellishment designs

One finishing product that can move with you across multiple services.

SOAK-OFF

The Gloss Top Coat is a soak-off gel formula.

When used over a complete soak-off service, it can be removed as part of that soak-off system.

When used over a product such as The Builder, follow the maintenance or removal requirements of the underlying enhancement rather than treating the entire service as a soak-off system.

15ML BOTTLE

A FAMILIAR FAVOURITE IN ITS NEW TAYLA-MADE LOOK

The Gloss Top Coat is available in a professional 15ml bottle for everyday salon use.

The product inside is the same trusted formula our customers have used for years, but the bottle has been completely elevated for Tayla-Made.

The luxe matte white bottle is finished with a gold lid, giving The Gloss Top Coat its more sophisticated, polished appearance within the core range.

It also features the Tayla-Made curved/rounded precision brush, designed to provide controlled application around the cuticle and sidewalls while allowing smooth coverage across the nail.

Same formula. Same product. New bottle. New brush. New Tayla-Made look.

100ML REFILL

BECAUSE YOUR MOST-USED PRODUCTS SHOULDN'T ALWAYS NEED ANOTHER BOTTLE

For busy nail techs and high-volume salons, The Gloss Top Coat is also available in a 100ml refill.

If this is a product you're using at the end of almost every gel service, repeatedly purchasing individual bottles doesn't always make sense.

The larger refill allows you to replenish your existing bottle while keeping your everyday working bottle at the nail desk.

This provides a practical option for professionals who use larger quantities of top coat and want to purchase their salon essentials more efficiently.

Same trusted formula. More of it.

HEMA FREE & TPO FREE

The Gloss Top Coat is formulated HEMA Free and TPO Free, consistent with the Tayla-Made Nail Co gel system.

As with all professional UV/LED gel products, correct application remains essential. Avoid contact with the skin and surrounding tissue and ensure the product receives its complete required cure.

HEMA Free and TPO Free doesn't replace responsible gel application.

HOW TO USE

- 1** COMPLETE YOUR COLOUR OR DESIGN
Complete and cure your chosen Tayla-Made colour, structure or nail art application as required.
- 2** APPLY THE GLOSS TOP COAT
Using the curved/rounded precision brush, apply a thin, even layer of The Gloss Top Coat across the entire nail. Work carefully around the cuticle and sidewalls, avoiding contact with the surrounding skin. Ensure the complete surface is evenly covered.
- 3** CURE
Cure for 60 seconds under a compatible UV/LED nail lamp.
- 4** YOU'RE DONE
The Gloss Top Coat is no wipe. No cleanser is required after curing. Allow the finished nails to cool momentarily before applying cuticle oil or touching the finished surface.

Apply Cure for 60 seconds Allow to cool momentarily Finished.

WHY YOU'LL LOVE IT

• Smooth, high-gloss finish	• The same trusted formula used by us for more than 10 years
• The same product previously known as The Ultimate Gloss Top Coat by Colour Me Pretty	• Long-standing customer favourite
• No-wipe formula	• Enhances the appearance of the colour underneath
• Suitable over gel colour	• Suitable over nail art
• Designed as the glossy finishing step within the Tayla-Made system	• Thin, controlled application
• Tayla-Made curved/rounded precision brush	• HEMA Free
• TPO Free	• UV/LED curable
• 60-second cure	• Soak-off formula
• Professional 15ml bottle	• 100ml refill available
• Luxe matte white bottle	• Gold lid
• Same proven formula with a new sophisticated Tayla-Made look	

PROFESSIONAL TIPS

THIN & EVEN WINS AGAIN.

A top coat doesn't need to be unnecessarily thick to create a beautiful glossy finish. Apply The Gloss Top Coat in a controlled, even layer, ensuring complete coverage without allowing excess product to pool around the cuticle or sidewalls.

Take a moment before curing to check the reflection across the surface. A smooth reflection before curing helps you identify areas that may need attention before the product is set.

Perfect the surface. Then cure it.

GIVE IT A MOMENT.

The Gloss Top Coat is no wipe, which means once it has completed its 60-second cure, there's nothing to cleanse from the surface. Allow the finished top coat to cool momentarily after curing before touching the surface or applying cuticle oil.

Then your service is complete.

AT A GLANCE
